

Plastic Cable Cover

A Simple Way To Tidy Your Cables.

Keep cables neatly concealed and workspaces looking clean with the Brateck Plastic Cable Cover. Finished in black, it blends naturally into any interiors for a cleaner, more professional installation.

Seamless Cable Connection

Creates a neat transition between compatible cable cover sections for a cleaner overall installation.

Durable PVC Material

Provides lightweight strength and reliable everyday performance.

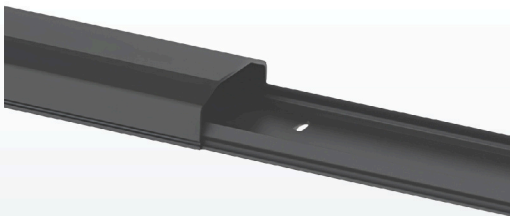

Clean Black Finish

Complements coloured walls and interiors for a more discreet look.

Plastic Cable Cover

A Simple Way To Tidy Your Cables.

Made from durable PVC, its slim design provides a practical way to route and protect cables along walls, desks or skirting while reducing visible clutter.

Features

Compact Design

Its 60x20x750mm size keeps cable joints neat without adding unnecessary bulk.

Professional Cable Management

Helps create a tidier, more organised and polished cable installation.

Easy Integration

Designed to work as part of a compatible cable management system for a coordinated setup.

Ideal for Multiple Environments

Suitable for all areas and other spaces where exposed cabling needs a cleaner finish.
