

Brateck

Cleaner Floors Safer Spaces

HEAVY-DUTY FLOOR CABLE COVER

Keep exposed floor cables protected, organised and out of the way.

The **Brateck CMBT-CC13-L110** is designed for commercial environments where safety, durability and a clean professional finish matter every day.

Fits Your Installation

No two installations are the same. The cuttable design lets you customise the cable cover to the exact length required, or connect multiple units end-to-end for continuous cable protection across longer walkways.

**Cuttable Design
for Flexible Installation**

Keep Cables Protected & Out of Sight

Conceal power and data cables inside the integrated cable channels to create a cleaner workspace while helping protect cables from everyday foot traffic, scuffs and wear.

**Cable Organiser
and Protective Cover**

**Dual Internal
Cable Channels**

Separate Cables. Stay Organised.

The dual-channel internal design keeps different cable types separated, helping maintain an organised installation while simplifying cable routing and future maintenance.

Fast Access When You Need It

The flexible lift-up lid makes adding, replacing or inspecting cables quick and simple, while rugged end caps help protect cable entry and exit points for long-lasting performance.

**Flexible Lid with
Rugged End Caps**
