Brateck

Protect Your Cables While Keeping Your Setup Neat.

CABLE SOCK

The **Brateck CS-30-W Braided Cable Sock** offers a practical and stylish solution for organising, concealing and protecting cables in modern workspaces. Designed to bundle multiple wires into one neat sleeve, it helps reduce visible clutter behind desks, monitors, televisions and entertainment systems.

Clean White Finish

Its discreet white colour complements light-coloured desks, walls and office interiors, helping create a more seamless and visually organised setup.

Flexible & Adaptable Design

The flexible braided sleeve bends around cable runs and can be cut to the required length, providing a neat fit for different cable management setups.

Durable Flame-Resistant Polyester

Made from durable, flame-resistant polyester that helps protect cables against everyday wear while providing an additional safety-conscious material feature.

Quick & Tool-Free Installation

Offers a straightforward cable organisation solution that can be installed without specialised tools, helping simplify setup for home and office environments.
