Brateck

A Secure and Convenient Mounting Solution.

THIN CLIENT CPU HOLDER

The **Brateck CPB-1 Adjustable Multifunctional Thin Client Mount** provides a practical, space-saving solution for organising compact computers in modern workstations. It helps keep devices off the desktop or floor while maintaining convenient access to essential connections.

Space-Saving Under-Desk Installation

Allows compact computers to be mounted beneath the desktop, freeing up valuable workspace and keeping devices away from floor-level dust and clutter.

Multifunctional Mounting Options

Supports pole-clamp and VESA-compatible installation, providing flexible placement options to suit different workspace configurations and mounting requirements.

Secure Straps for Added Stability

Includes securing straps that help hold the device firmly in place, providing additional stability during everyday operation.
