Brateck

A Smarter Way to Work with Electric Height Control.

STAND DESK CONVERTER

The **Brateck DWS28-02N Gas Spring Sit-Stand Desk Converter** offers a simple, practical way to transform an existing desk into a flexible sit-stand workstation. Built with a durable MDF surface and sturdy steel construction, it delivers everyday ergonomic flexibility and a more adaptable working experience.

Effortless Electric Height Adjustment

Features a powerful, quiet electric motor with an easy-to-use press controller, allowing users to smoothly adjust their workstation height.

Stable X-Lift Mechanism

Equipped with a durable steel X-Lift structure that raises and lowers the workstation vertically, providing dependable support.

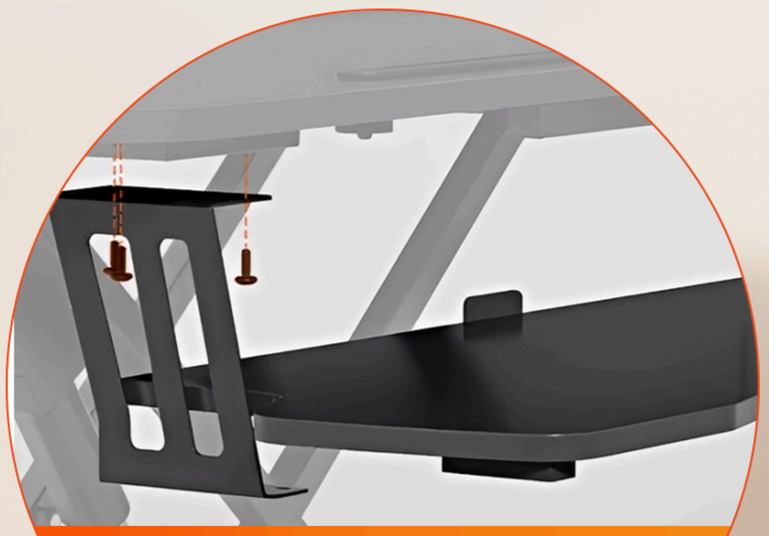

Integrated Tablet & Phone Storage

Features a convenient built-in storage slot for tablets and smartphones, keeping essential devices securely positioned and within reach.

Durable Construction & Easy Desk Conversion

Combines a moisture-resistant melamine work surface with a sturdy steel frame and freestanding installation.
