LED LAMP

The **Brateck LDL20-3 LED Desk Lamp** delivers powerful, ultra-wide illumination for modern workspaces, combining versatile lighting control with a sleek, minimalist design. Featuring adjustable colour temperatures, smooth brightness control and flexible multi-angle positioning.

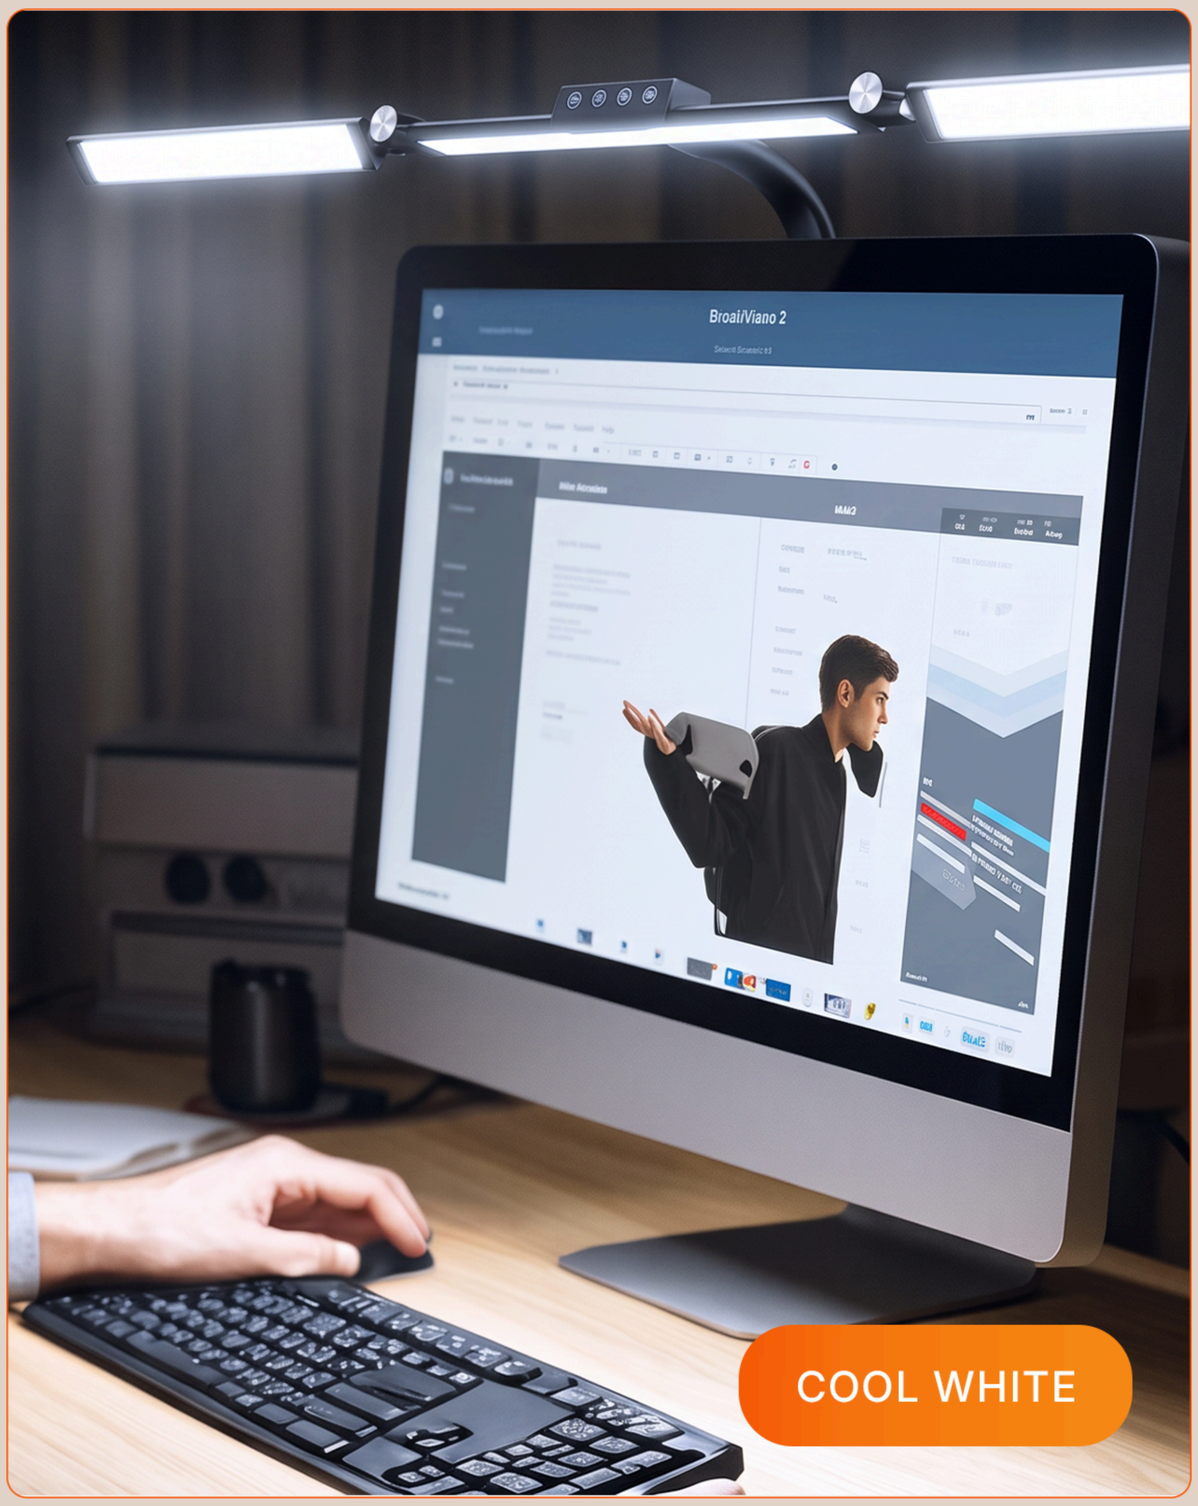

Unique Triple-Light Design

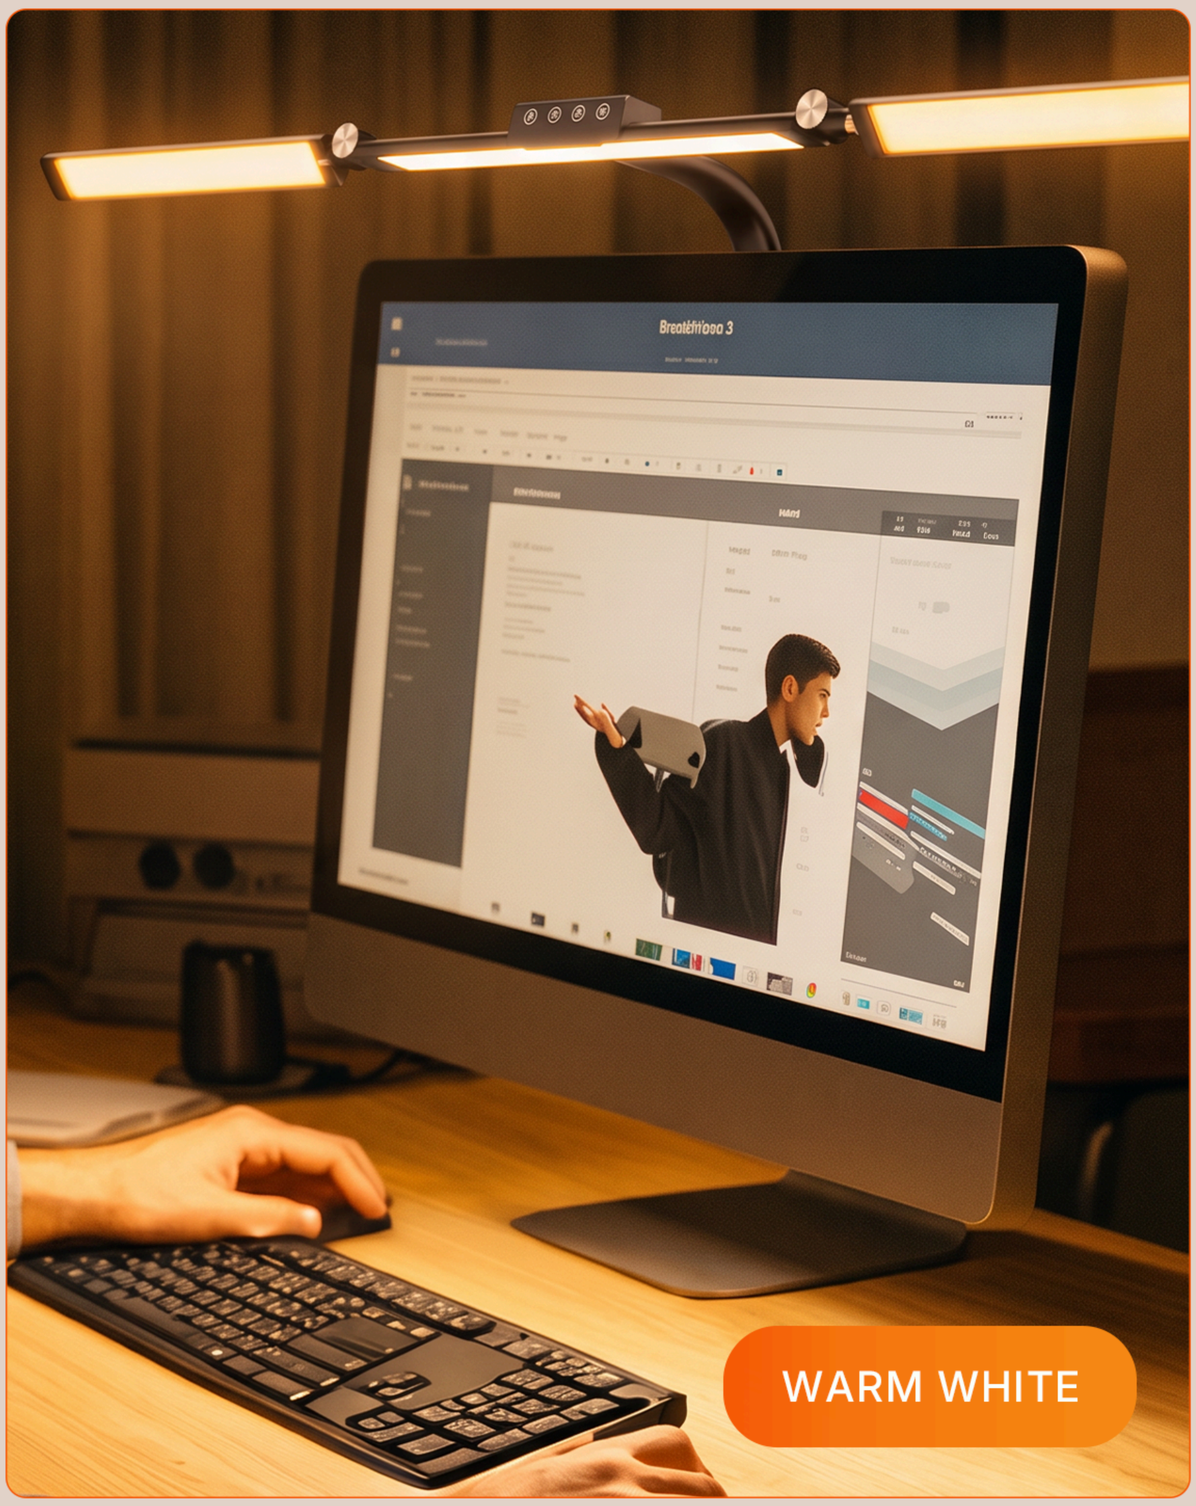

Features three adjustable LED light bars with 84 LEDs, delivering ultra-wide, evenly distributed illumination across larger workspaces while reducing unwanted shadows.

Adjustable Colour Temperature & Smooth Brightness Control

Customise your lighting with adjustable colour temperatures from warm 3000K to cool 6000K, featuring five brightness levels and smooth stepless dimming for comfortable illumination tailored to any task or workspace.

Extended 1.8m Cable

Features a conveniently positioned touch-sensitive control panel for effortless adjustment of brightness and colour temperature, , allowing users to customise their lighting quickly.

Flexible Multi-Angle Positioning

Features an adjustable lamp structure that allows users to direct illumination where it's needed, providing greater flexibility for different workstation layouts and lighting requirements.
