

Brateck

Sleek metal design. Rigid stability.

LDT10-C024 MONITOR ARM

The **LDT10-C024** is constructed with elegant die casting aluminum and innovative counterbalance technology. It can efficiently free up space on your desk and easily move your LCD monitor into the best ergonomic position. Highly adjustable arm moves up, down, forward and back with just a touch.

Innovative Interactive Counterbalance Technology

Equipped with a premium internal mechanics system, this arm perfectly offsets the weight of your displays. It lets you float two monitors effortlessly up, down, forward, and back to achieve your absolute best ergonomic viewing position.

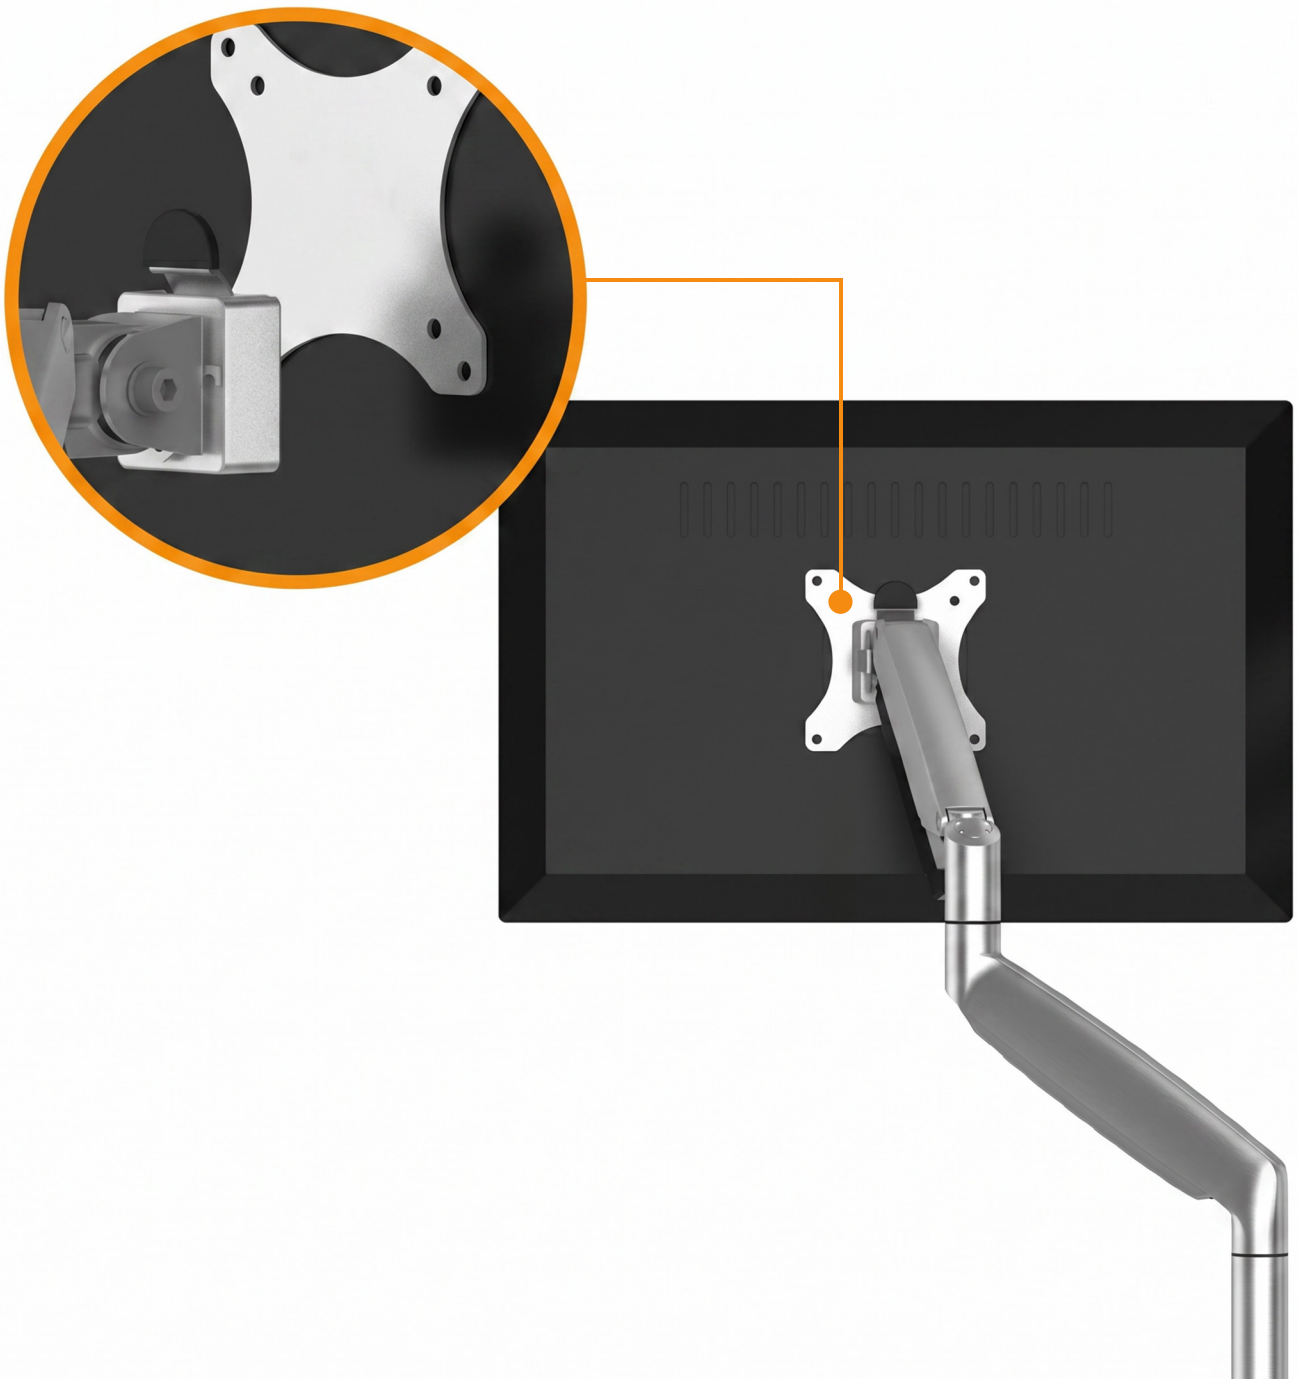

Refined Aesthetics and Long-Lasting Desktop Durability

Built from heavy-duty, premium-grade die-cast aluminum, this mount features a sleek metallic profile that complements high-end workspaces. It offers a sophisticated look while remaining light and highly structurally sound.

Detachable Quick-Install VESA Plates

Engineered with user-friendly detachable keyhole VESA structures, mounting your monitors is safe and straightforward. Simply secure the plate to your display's back panel, then slide it smoothly onto the arm mount without struggling under heavy weight.

Built-in Cable Management

Route your power and display cords seamlessly along the articulating arms. The integrated channels keep wiring hidden from sight, ensuring a clean, symmetrical, and distraction-free workspace.
