Economy Single Screen Spring-Assisted Monitor Arm

Flexible viewing, simpler setup.

The Brateck LDT13-C012E combines ergonomic screen positioning with practical everyday functionality. Designed for 17”-32” monitors weighing 2–9kg, it offers smooth spring-assisted adjustment, flexible viewing angles and a cleaner, more organised workspace.

Smooth Balance

Spring tension keeps monitor movement controlled.

Flexible Viewing

Tilt, swivel and rotate for comfortable positioning.

Clean Installation

Clamp or grommet mounting keeps the setup tidy.

Smooth Motion, Smarter Workspace

Position your monitor effortlessly with spring-assisted movement designed for comfortable viewing and a cleaner, more productive desk.

Built for 17”–32” flat or curved monitors weighing 2–9kg, the LDT13-C012E offers flexible tilt, swivel, rotation and up to 450mm extension. Keyhole VESA mounting, adjustable spring tension, integrated cable management and included clamp and grommet options make installation simple and everyday adjustments smooth.

Features

Spring-Assisted Balance

The built-in mechanical spring system helps counterbalance the monitor’s weight for smooth, controlled positioning. Adjust the screen height and viewing position with less effort throughout the working day.

Keyhole VESA Mounting

The VESA plate features convenient keyhole mounting slots for easier monitor installation and removal. Compatible with 75×75mm and 100×100mm VESA patterns.

Flexible Viewing Control

Tilt the screen from +90° to -45°, swivel it 90° left or right and rotate it through 360° to achieve a comfortable portrait or landscape viewing position.

Flexible Desk Installation

Both clamp and grommet mounting hardware are included to suit different desktop configurations. Integrated cable management guides wiring along the arm for a cleaner and more organised setup.
