Double the view, free the desk.

LDT16-C024 GAS-SPRING DUAL ARM

Designed to be high performance monitor arm, **LDT16-C024** helps you free up space and optimise your health and wellness. A built-in gas spring allows for smooth and accurate adjustment to comfortable reading positions. Flexible tilt, pivot and swivel functionality provides comfotable monitor angles. Moreover, the product incorporates a quick-release VESA plate which makes installation easier.

Smooth Gas-Spring Adjustment

Built-in gas-spring mechanisms counterbalance the weight of each monitor, allowing both screens to be raised, lowered and repositioned smoothly. Adjustable gas pressure supports monitors of different weights for controlled, reliable movement.

Independent Full-Motion Arms

Position each monitor independently to suit different tasks and viewing preferences. The arms support ±35° tilt, ±90° swivel and full 360° screen rotation for landscape or portrait viewing.

Quick-Release VESA Plates

Detachable VESA plates make monitor installation more convenient. Attach the plates to the displays first, then securely connect them to the monitor arms—without needing to hold the screens throughout the complete installation process.

Clean and Flexible Installation

Integrated cable management routes display cables neatly along the arms for a cleaner desktop. Both desk-clamp and grommet mounting hardware are included, providing secure installation options for different workstation layouts.
