USB Port Expansion

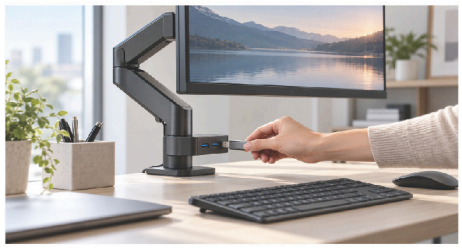

Connect Easier. Work Smarter.

The Brateck LDT20 Series USB Port Expansion is a practical workstation accessory designed to provide more convenient USB access when used with compatible LDT20 Series monitor arms.

Convenient USB Accessibility

Making it easier to connect everyday USB peripherals without repeatedly reaching behind a desktop computer.

Extended 1.8m Cable

Allowing users to position their USB connection more conveniently around a monitor arm and desk setup.

Designed for LDT20 Series

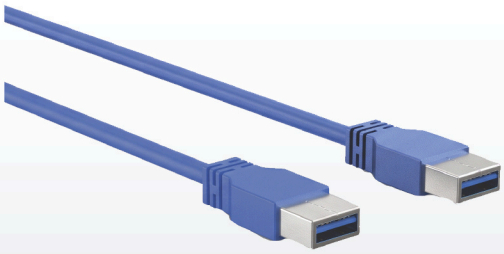

Offering a practical way to improve workstation connectivity without replacing an existing compatible monitor arm.

USB Port Expansion

Connect Easier. Work Smarter.

Its 1.8m cable offers flexible routing, helping users connect without constantly reaching behind their computers.

Features

Space Saving
Provides generous space for your keyboard, mouse and gaming accessories while creating a more unified setup.

Cleaner Workspace Connectivity
Allowing the cable to be routed around the workstation for a neater, more organised desk environment.

Durable PVC Cable Construction
Providing a practical construction for everyday USB connections.

Versatile Use
Ideal for gaming, office work, creative tasks and home desk setups.
