

Brateck

Dual-screen harmony, zero-clamp required.

LDT33-T024 FREE STANDING MONITOR STAND

The **Brateck LDT33-T024** is an articulating freestanding dual-monitor stand engineered for flexible, clamp-free desktop mounting. Featuring independently adjustable arms, quick-release VESA plates, and a heavy-duty padded base, it allows you to align two displays effortlessly without modifying your desk. It keeps your workstation clean, stable, and ergonomically optimized for all-day focus.

Freestanding Heavy-Duty Base

Designed with a weighted, low-profile base that rests securely on any flat surface, eliminating the need for desk edge clamps or grommet holes while keeping your desk entirely damage-free.

Independent Arm Articulation

Each arm moves and adjusts separately across multiple pivot points, allowing you to fine-tune side-by-side monitor placement and maintain a perfectly seamless dual-screen alignment.

Built-in Cable Clip Management

Equipped with integrated cable routing channels along the arms and central column to keep power cords and display cables neatly organized, hidden, and tangle-free.

Full 360° Screen Rotation

Built with a smooth rotational mechanism at the VESA joint, enabling seamless transitions between portrait and landscape modes for coding, document reading, or creative work.
