Brateck

Premium Design for Your Modern Workspace.

MECHANICAL SPRING MONITOR ARM

Combines sophisticated aesthetics, smooth adjustments and reliability, the **Brateck LDT49-C024-W Premium Slim Aluminium Spring-Assisted Dual Monitor Arm** allows users to independently adjust and balance their displays for smoother, more controlled positioning. Ideal for modern offices and professional multi-screen environments.

Premium Slim Aluminium Construction

Features a sleek, lightweight aluminium arm design with a sophisticated fine-texture white finish, combining dependable support and minimalist aesthetics.

Built-In Spring Tension Gauge

Features a visible tension indicator that helps users
accurately balance the spring mechanism
according to monitor weight.

Flexible Dual-Screen Viewing Angles

Supports two compatible 17"–32" monitors weighing between 2kg and 9kg each, offering tilt, swivel and screen rotation for versatile portrait and landscape.

Quick-Release VESA Plates & Concealed Cable Management

Combines detachable VESA mounting plates with integrated cable management channels, simplifying monitor attachment while keeping connections neatly routed.
