

Brateck

Built for a Better Dual-Screen Setup.

DUAL-SCREEN MONITOR MOUNT

Create a cleaner, more productive dual-screen workspace with the **Brateck Pole Mount Dual-Screen Monitor Mount**. Designed to support most monitors, it provides a strong and flexible mounting solution for multitasking, productivity and everyday viewing. It's ideal for offices, home workstations, POS environments and professional setups where efficient use of space matters.

Individual VESA Height Adjustment

Fine-tune each monitor independently to achieve better screen alignment and create a cleaner, more comfortable dual-display setup.

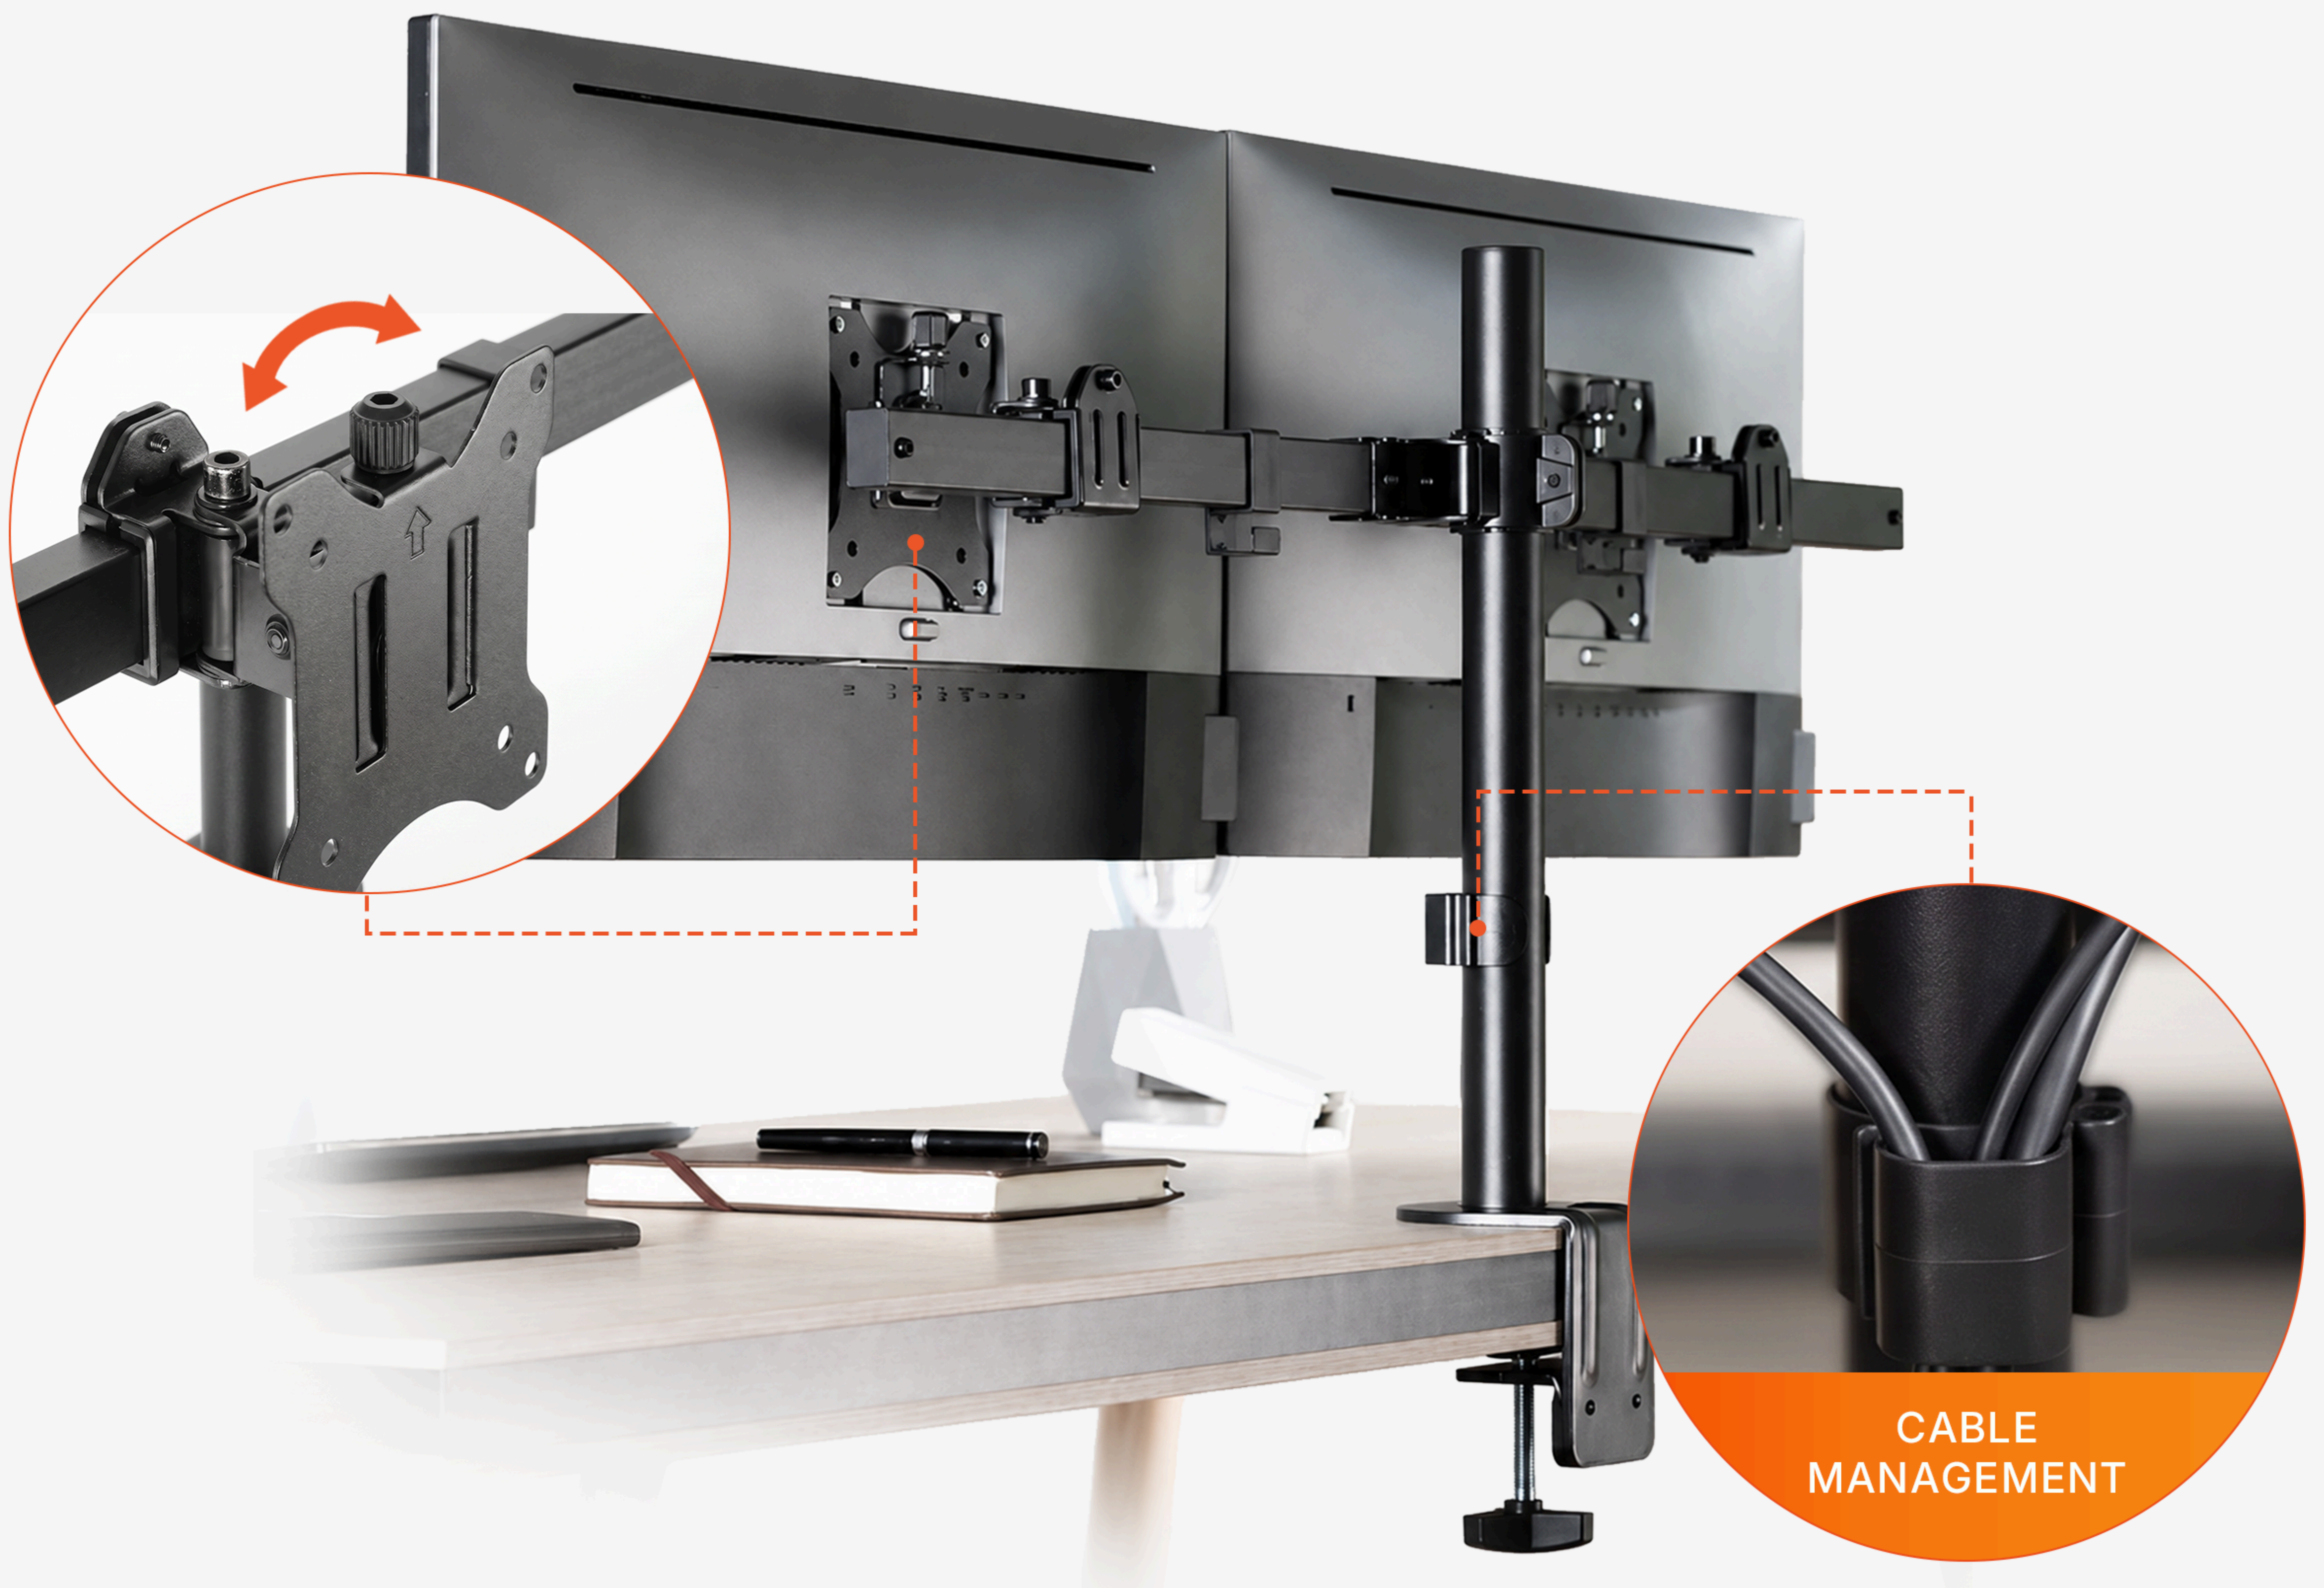

Flexible Viewing Angles

Rotate monitors between horizontal and vertical orientations to suit spreadsheets, documents, coding, design work or general multitasking.

Flexible Tilt Adjustment & Cable Management

Easily tilt each monitor to achieve a more comfortable viewing angle and an integrated cable clips keep wires neatly routed for a tidier, more organised workspace.

Dual Mounting Options

Includes both desk clamp and grommet mounting options, giving you greater flexibility when installing the mount on different desk configurations.
