Articulating Monitor Mount

Two Screens. Every Angle Covered.

Independently adjustable steel articulating arms, portrait and landscape rotation, and a space-saving pole-mounted design—built for a smarter, more comfortable workspace.

Features

Portrait & Landscape Flexibility
Enabling users to switch between portrait and landscape orientations to suit different applications.

Dual Mounting Options
Includes both desk clamp and grommet mounting options, along with detachable VESA plates.

Integrated Cable Management
Keeps cables neatly routed and out of sight, reducing clutter and maintaining a professional desk setup.

Tilt, Swivel & Screen Rotation
Allowing users to customise their viewing angles for different tasks and reduce unwanted glare.
