Brateck

Bigger Screens. One Streamlined Solution.

GAS SPRING DUAL MONITOR ARM

Built for demanding multi-screen workstations, the **Brateck LDT81-C024P-B Heavy-Duty Pole Mounted Gas Spring Dual Monitor Arm** is ideal for large, curved and ultrawide dual-screen setups used in offices and different workstations. The pole-mounted structure provides greater vertical positioning flexibility, while independent monitor adjustment helps users create a more ergonomic and productive viewing setup.

Pole-Mounted Dual Screen Design

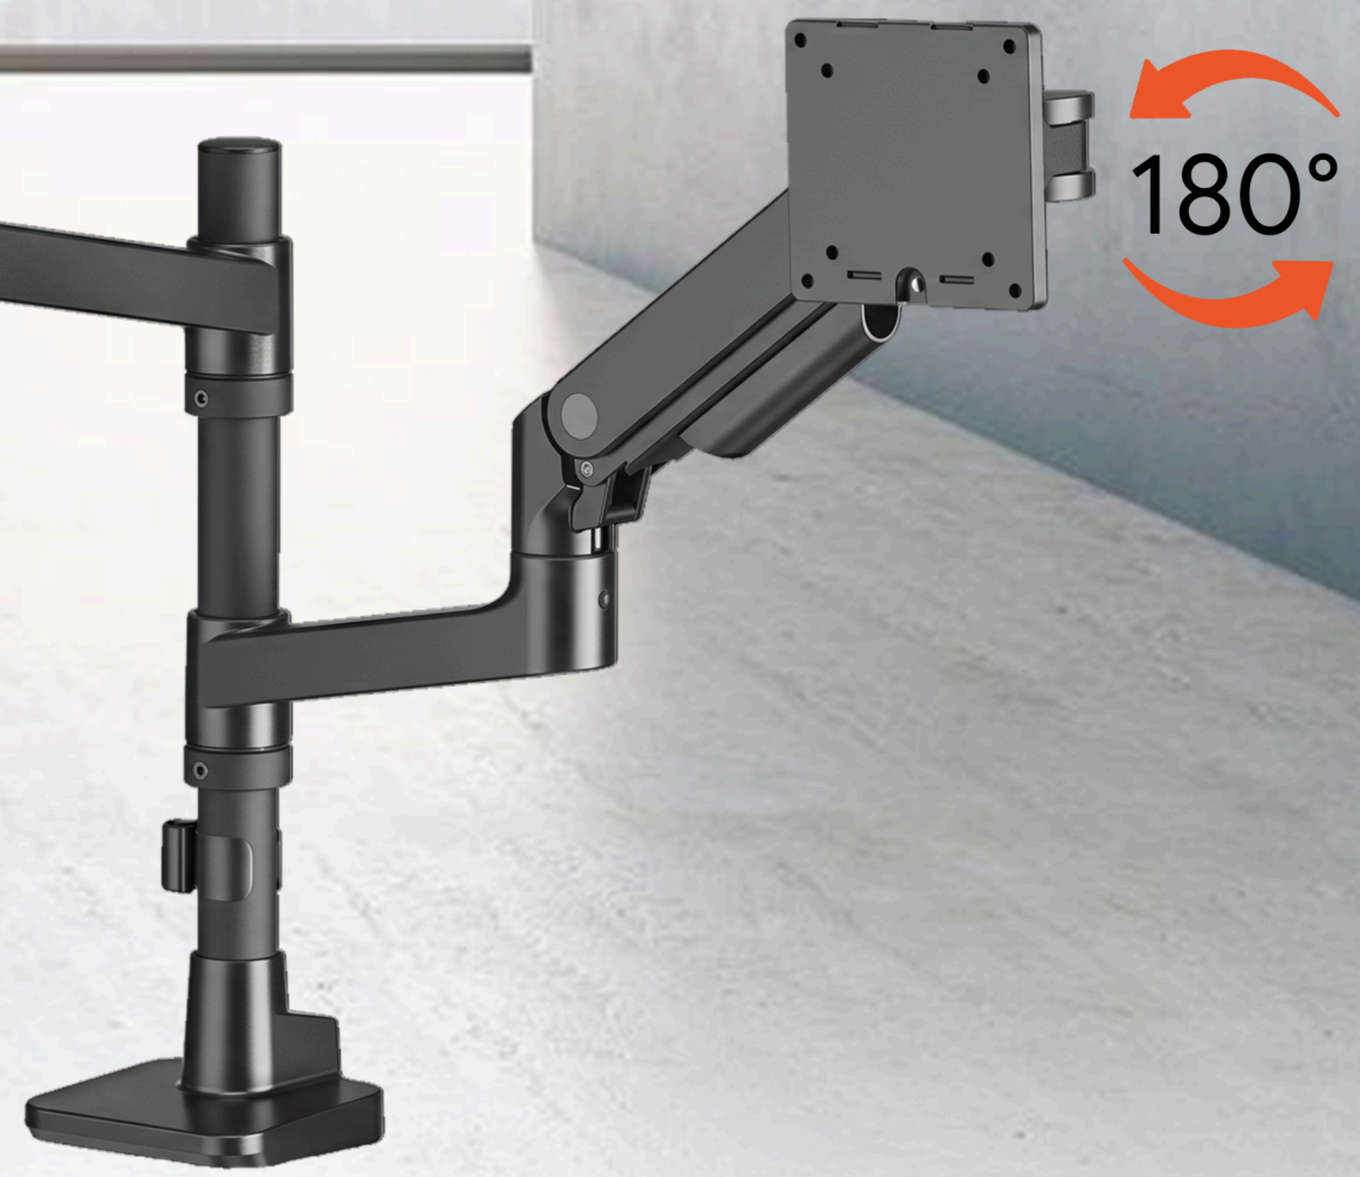

Provides additional vertical positioning flexibility while supporting two indepedently adjustable displays.

Smooth Tilt & Adjustable Height

The optimized tilting structure provides strong, controlled support for larger screens, while freely adjustable height helps position each monitor for a more comfortable and ergonomic viewing setup.

OPTIMIZED HEAD TILTING SPRING

Heavy-Duty Support for Large Displays

Supports most 17""-49" large, ultrawide, flat or curved monitors with a weight capacity of up to 44 lbs per screen, while allowing smooth and stable repositioning.

Easy Installation

Install the mount entirely from above the desk for easier setup, while the 360° rotary VESA plate lets you switch between portrait, landscape or customised viewing positions.
