Brateck

Pole-Mounted Power. Gas-Spring Precision.

GAS SPRING MONITOR ARM

Built for larger single-screen setups, the **Brateck LDT81N-C012UCP Fusion Heavy-Duty Pole-Mounted Gas Spring Monitor Arm** combines strong support, smooth gas-spring movement and a pole-mounted structure for greater positioning freedom. The pole-mounted design also helps provide additional height and positioning flexibility compared with a standard direct-mount arm.

Pole-Mounted Heavy-Duty Support

The pole-mounted design supports most 17"–49" standard, large and ultrawide flat or curved monitors up to 44 lbs, while providing smooth, stable repositioning and greater height flexibility.

Smart Connectivity & Easy Installation

The integrated USB-A and USB-C ports provide convenient data transfer or device charging with snap-off access plates for a cleaner setup, while top-side installation allows the mount to be installed entirely from above the desk for easier access.

Smooth Gas-Spring Movement

Provides responsive, effortless screen repositioning throughout the working day.

360° Rotation & Quick-Release VESA

Rotate the display between portrait, landscape or customised orientations, while the detachable VESA plate makes installation and removal faster and more convenient.

17"-49" Fit Screen Size	Fine Texture Black Color	Steel, Aluminum, Plastic Material
