

Brateck

Maximum Screen Space. Minimum Desk Clutter.

MECHANICAL SPRING QUAD MONITOR ARM

Expand your workspace and take control of serious multitasking with the **Brateck Modular Mechanical Spring Quad Monitor Arm with Sliders**. The modular slider system helps align each monitor and fine-tune viewing distance, while the mechanical spring arms allow smooth, responsive positioning throughout the day. It creates a powerful multi-display workstation while freeing valuable desk space.

Smooth & Ergonomic Screen Positioning

The one-way bearing tilt mechanism reduces friction for effortless adjustment, while universal monitor sliders help position and align each screen at a comfortable viewing distance.

UNIVERSAL MONITOR SLIDERS

ONE-WAY
BEARING

Fast & Convenient Installation

Quick-release VESA plates simplify monitor mounting and removal, while top-side installation allows the entire setup to be completed easily from above the desk.

Wide Range of Movement

Supports screen tilt, swivel, rotation and height adjustment for a more personalised viewing position.

Support Four 17"-40"

Designed to accommodate four monitors for productivity, multitasking, trading, creative work and professional applications.
