

Gaming Pole-Mounted Dual Monitor Arm

Closer to the Wall. Flexible in Every Direction.

Finished in matte black and white, Atlas Neo brings a clean, performance-driven look to modern battlestations and professional setups.

Large Monitor Compatibility
Designed for a wide range of large gaming and productivity displays.

Detachable VESA Plate
Makes monitor installation and removal faster and more convenient.

Freely Adjustable Height
Lets users fine-tune screen height for a more ergonomic and comfortable viewing position.

Gaming Pole-Mounted Dual Monitor Arm

Closer to the Wall. Flexible in Every Direction.

Its pole-mounted design allows precise screen positioning for immersive gaming, streaming and content creation while integrated USB ports keep essential connectivity within easy reach.

Features

Smart Base with USB-A & USB-C Ports

Integrated connectivity at the base provides convenient data transfer or device charging, with snap-off access plates for a cleaner setup.

360° Rotary VESA Plate

Supports full screen rotation for greater flexibility in portrait, landscape or customised viewing configurations.

Top-Side Installation

Installs entirely from above the desk surface for easier setup and access.

Pole-Mounted Dual-Screen Design

Creates a strong, space-efficient setup for two large monitors while helping free valuable desk space.
