

Brateck

Massive strength, ultra-slim design.

LP72-44F FIXED TV WALL MOUNT

The **LP72-44F TV wall mount** includes popular accessories needed to install and mount most 32"-75" curved/flat panel TVs weighing up to 75kg/165lbs. Spring locks with release straps allow users to lock or release TV in a snap. It features an open design which maximizes airflow to equipment and provides easy access to the back of components.

75kg Massive Load Capacity

Constructed from high-grade, 1.5mm thick cold-rolled steel, this rigid fixed frame is engineered to securely carry extra-large curved and flat-panel TVs ranging from 32" up to 70". It delivers zero-flex stability for heavy setups.

Instant Secure Snapping and Fast Quick-Release Access

Equipped with built-in automatic mechanical click-locks and integrated pull-straps, this mounting mechanism allows you to securely latch the display brackets onto the wall plate instantly or pop them free for swift, tools-free panel removal.

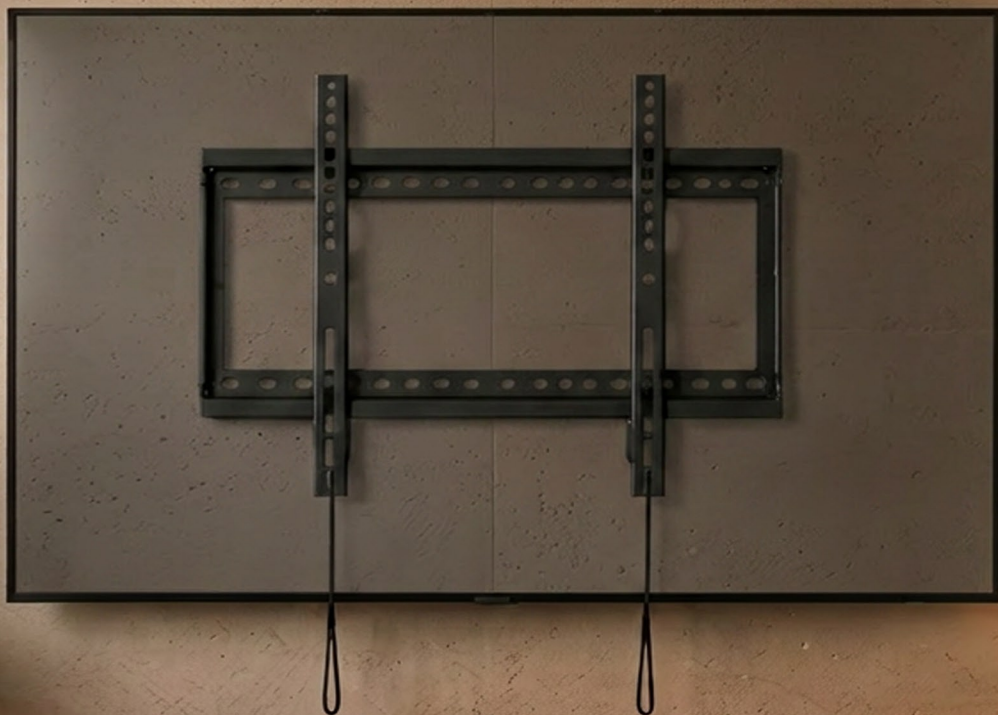

Open Back Architecture

Designed with a wide open-center wall layout, this bracket drastically improves natural airflow around inputs and backend electronics while creating unhindered structural space to drop wires cleanly into wall boxes or routing ports.

Multi-VESA Universal Fit

Featuring a highly adaptable hole pattern layout, this plate covers extensive configuration standards up to a maximum VESA layout of 400×400mm. It guarantees an accurate alignment fit with a massive variety of global display brands.
