Brateck

Position Every View Perfectly

LPA50-223 FULL-MOTION TV WALL MOUNT

The **Brateck LPA50-223** combines smooth full-motion adjustment with a strong, space-conscious design. Extend, swivel and tilt the screen to achieve a comfortable viewing angle, then fold it closer to the wall when not in use. Integrated cable management and decorative covers help maintain a clean, refined installation.

Flexible Full-Motion Viewing

Swivel the TV up to 90° left or right and tilt it from +5° to −15° to find a comfortable viewing angle, improve screen visibility and help minimise unwanted glare.

Extended Screen Positioning

Adjust the mount from a compact 45mm profile to a maximum extension of 510mm, allowing the screen to sit closer to the wall or move forward when greater flexibility is required.

Heavy-Duty TV Support

Built from durable steel and plastic, the mount securely supports 23″–43″ TVs weighing up to 35kg. It has also passed strength testing at four times its rated capacity.

Clean Precise Installation

Integrated cable management and decorative covers help keep wiring organised, while ±3° levelling adjustment allows the screen to be correctly aligned after mounting.

Steel and Plastic	23”-43”	224 × 292 × 510mm
Material	Fit Screen Size	Dimensions
75×75 - 200×200	35kg	Fine-texture black powder coating
