

Brateck

Designed for Security. Built for Performance.

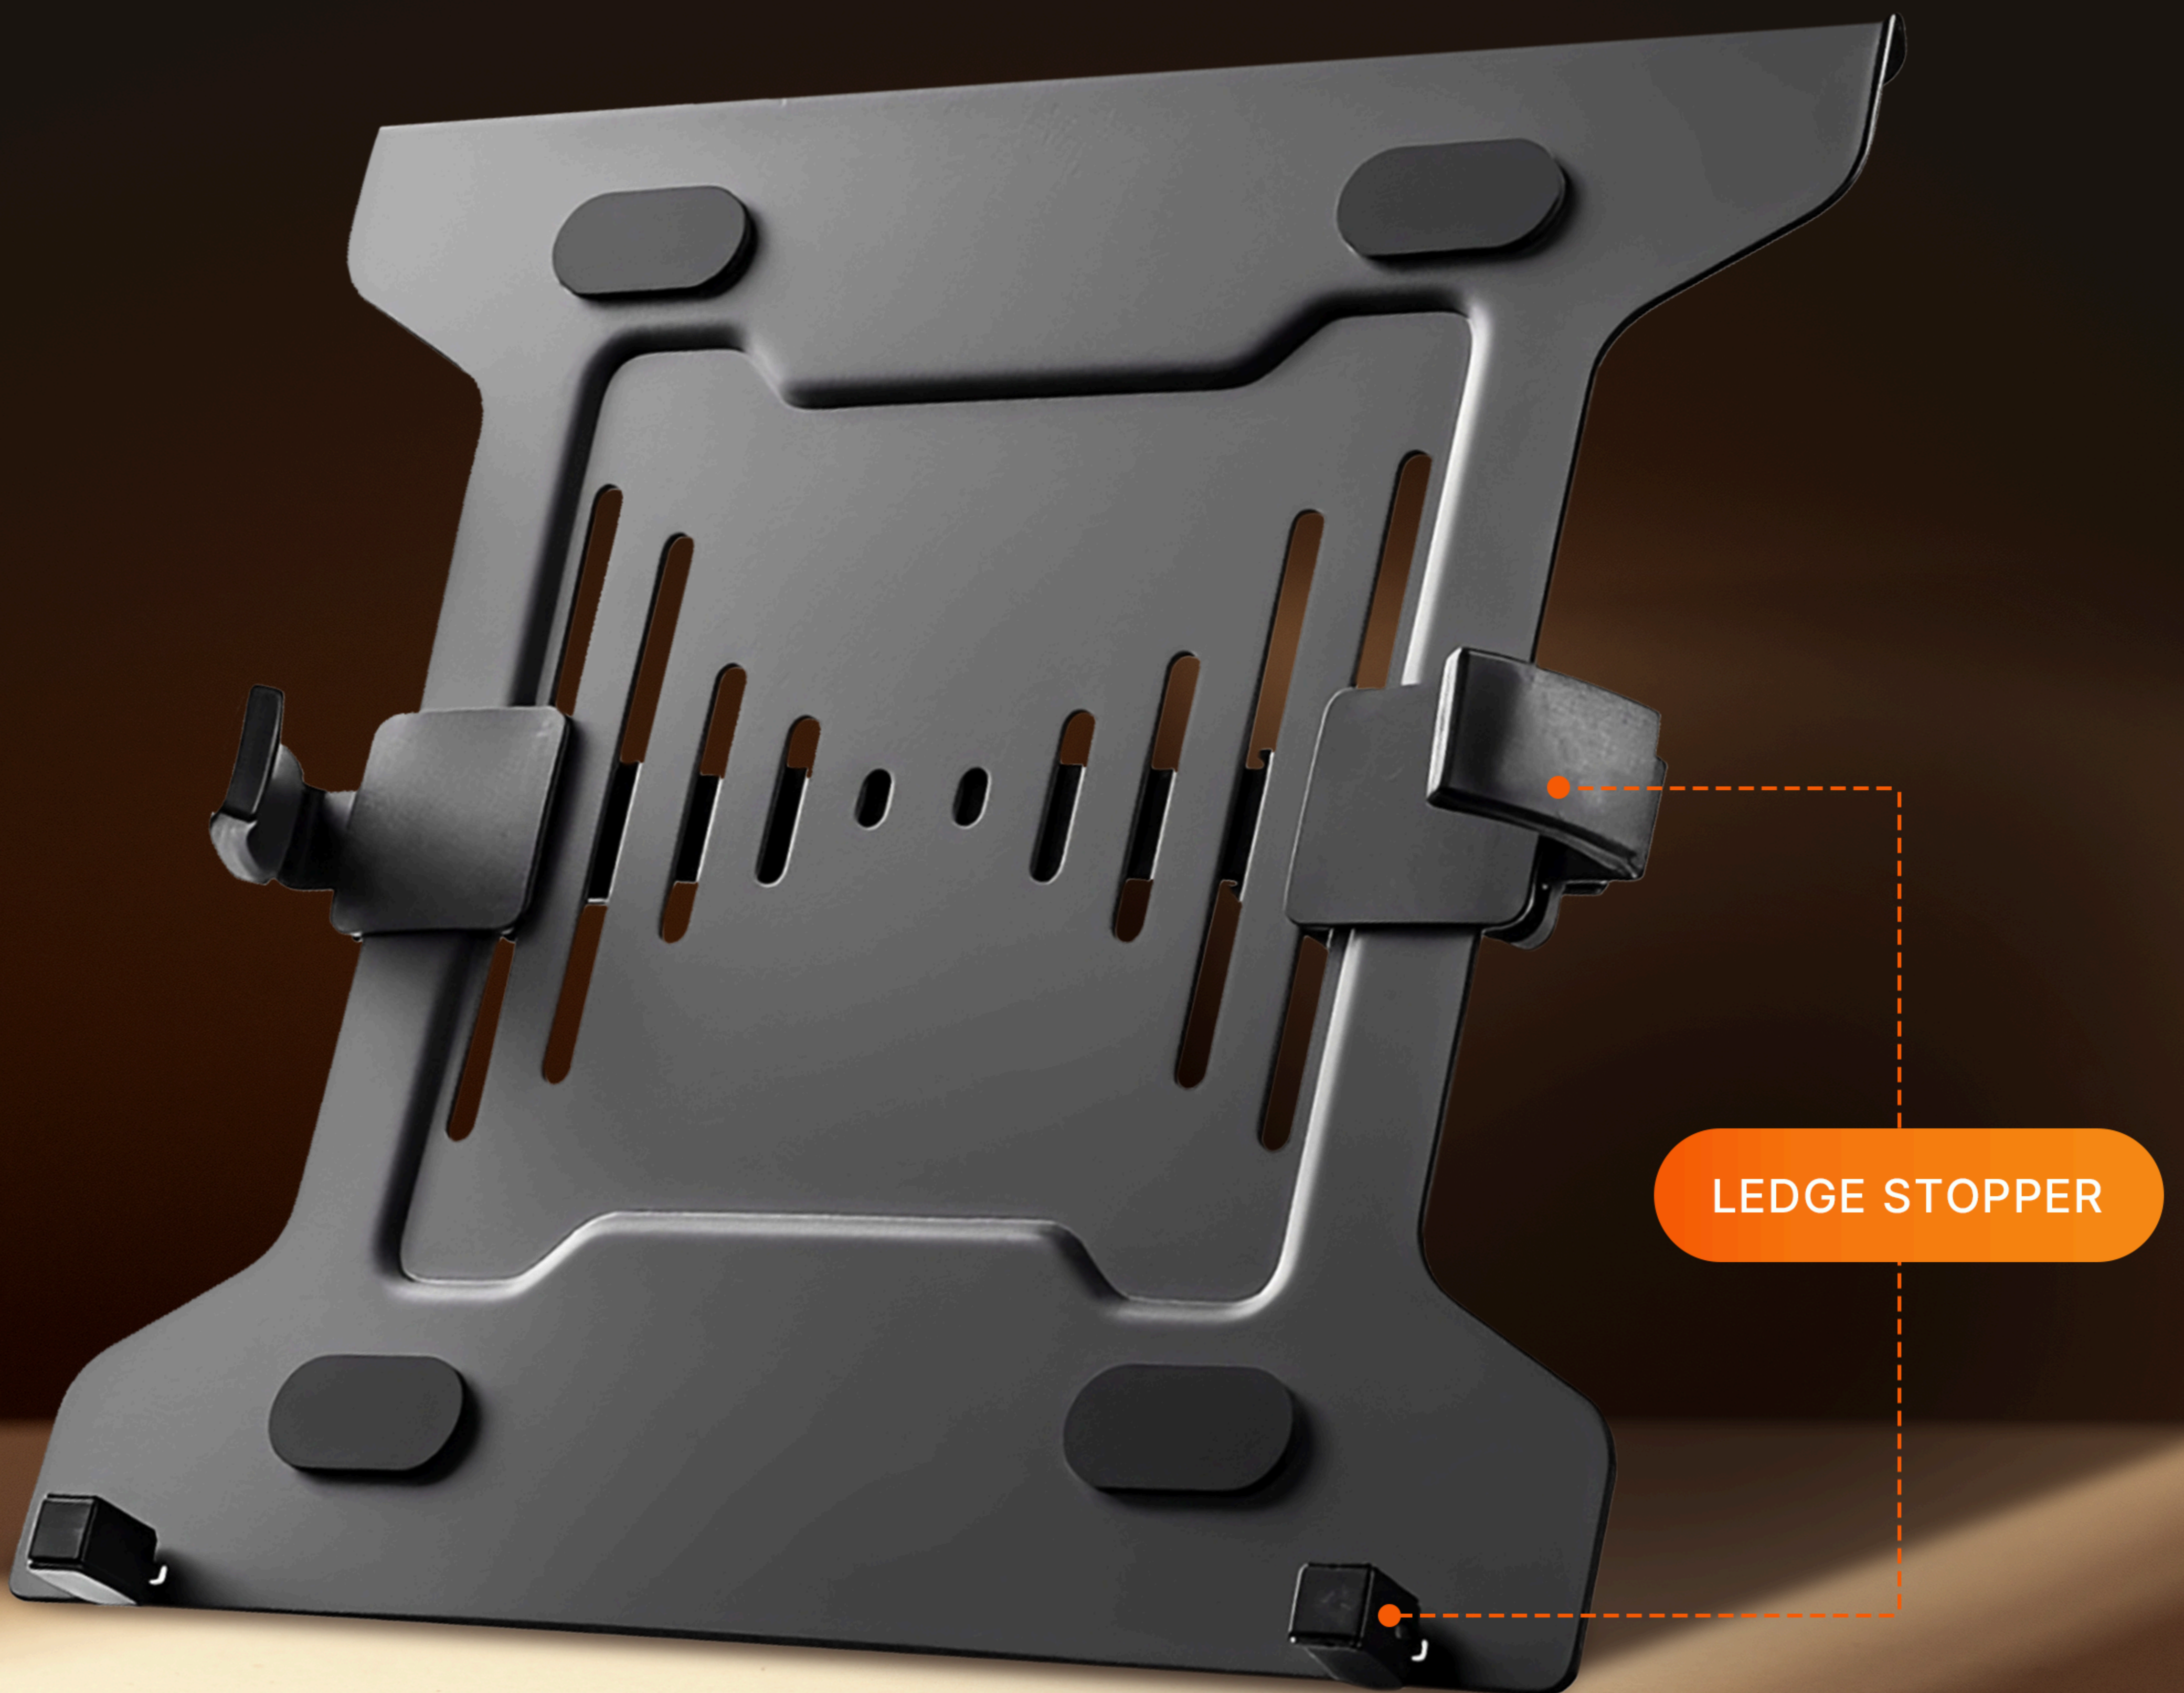

STEEL LAPTOP HOLDER

Built from durable steel, this space-saving solution elevates your laptop for improved ergonomics, better airflow, and a cleaner, more organized workstation. The **Brateck Steel Laptop Holder** designed to securely support laptops while integrating seamlessly with most monitor arms and desk.

Durable & Secure Design

Constructed from heavy-duty steel and equipped with a Safety Ledge Stopper, this holder delivers reliable strength and stable support to keep your laptop securely in place during everyday use.

Universal Compatibility

Designed to fit most 10"–15.6" laptops and supports standard 75×75mm and 100×100mm VESA mounts, making it compatible with a wide range of monitor arms and desk mount systems.

Multi-Purpose Device Support

Designed to securely hold both laptops and tablets, providing a versatile mounting solution for flexible work, productivity, and entertainment setups.

Ergonomic & Ventilated Design

Elevates your device to create a cleaner, more comfortable workspace while the open-frame design promotes better airflow to help keep laptops and tablets cool during use.
