

Adjustable Laptop Tray for Monitor Arms

Work Smarter. Stay Organised.

The **Brateck NBH-7** is an adjustable laptop tray designed to mount on standard 75x75 VESA monitor arms, fitting laptops from 12" to 17". With two height settings, a foldable design, and an open ventilation platform, it transforms any monitor arm into a complete dual-screen workstation.

2 Height Settings

Two selectable height positions for optimal viewing height.

Good Ventilation

Open design offers increased air circulation – working as a heat sink.

Foldable Design

Saves your space for easy storage when not in use.

Adjustable Laptop Tray for Monitor Arms

Secure Support. Better Productivity.

Designed for professional and home office workstations, the Brateck NBH-7 combines a foldable steel and plastic platform with adjustable depth and a 75x75 VESA bracket to mount 12"-17" laptops on any compatible monitor arm.
