

Brateck

Creating Safer Paths for Everyday Movement.

WHEELCHAIR RAMP

The **Brateck Two-Sided Aluminum Wheelchair Threshold Ramp** helps create safer and more accessible transitions over doorways, steps, and uneven surfaces. Designed for homes, offices, healthcare facilities, and public spaces, it improves mobility and convenience for wheelchair users, mobility aids, carts, and wheeled equipment, making everyday movement smoother and more comfortable.

Foldable Portable Design

Features a foldable structure with a soft-grip handle for easy carrying, transport, and storage when not in use.

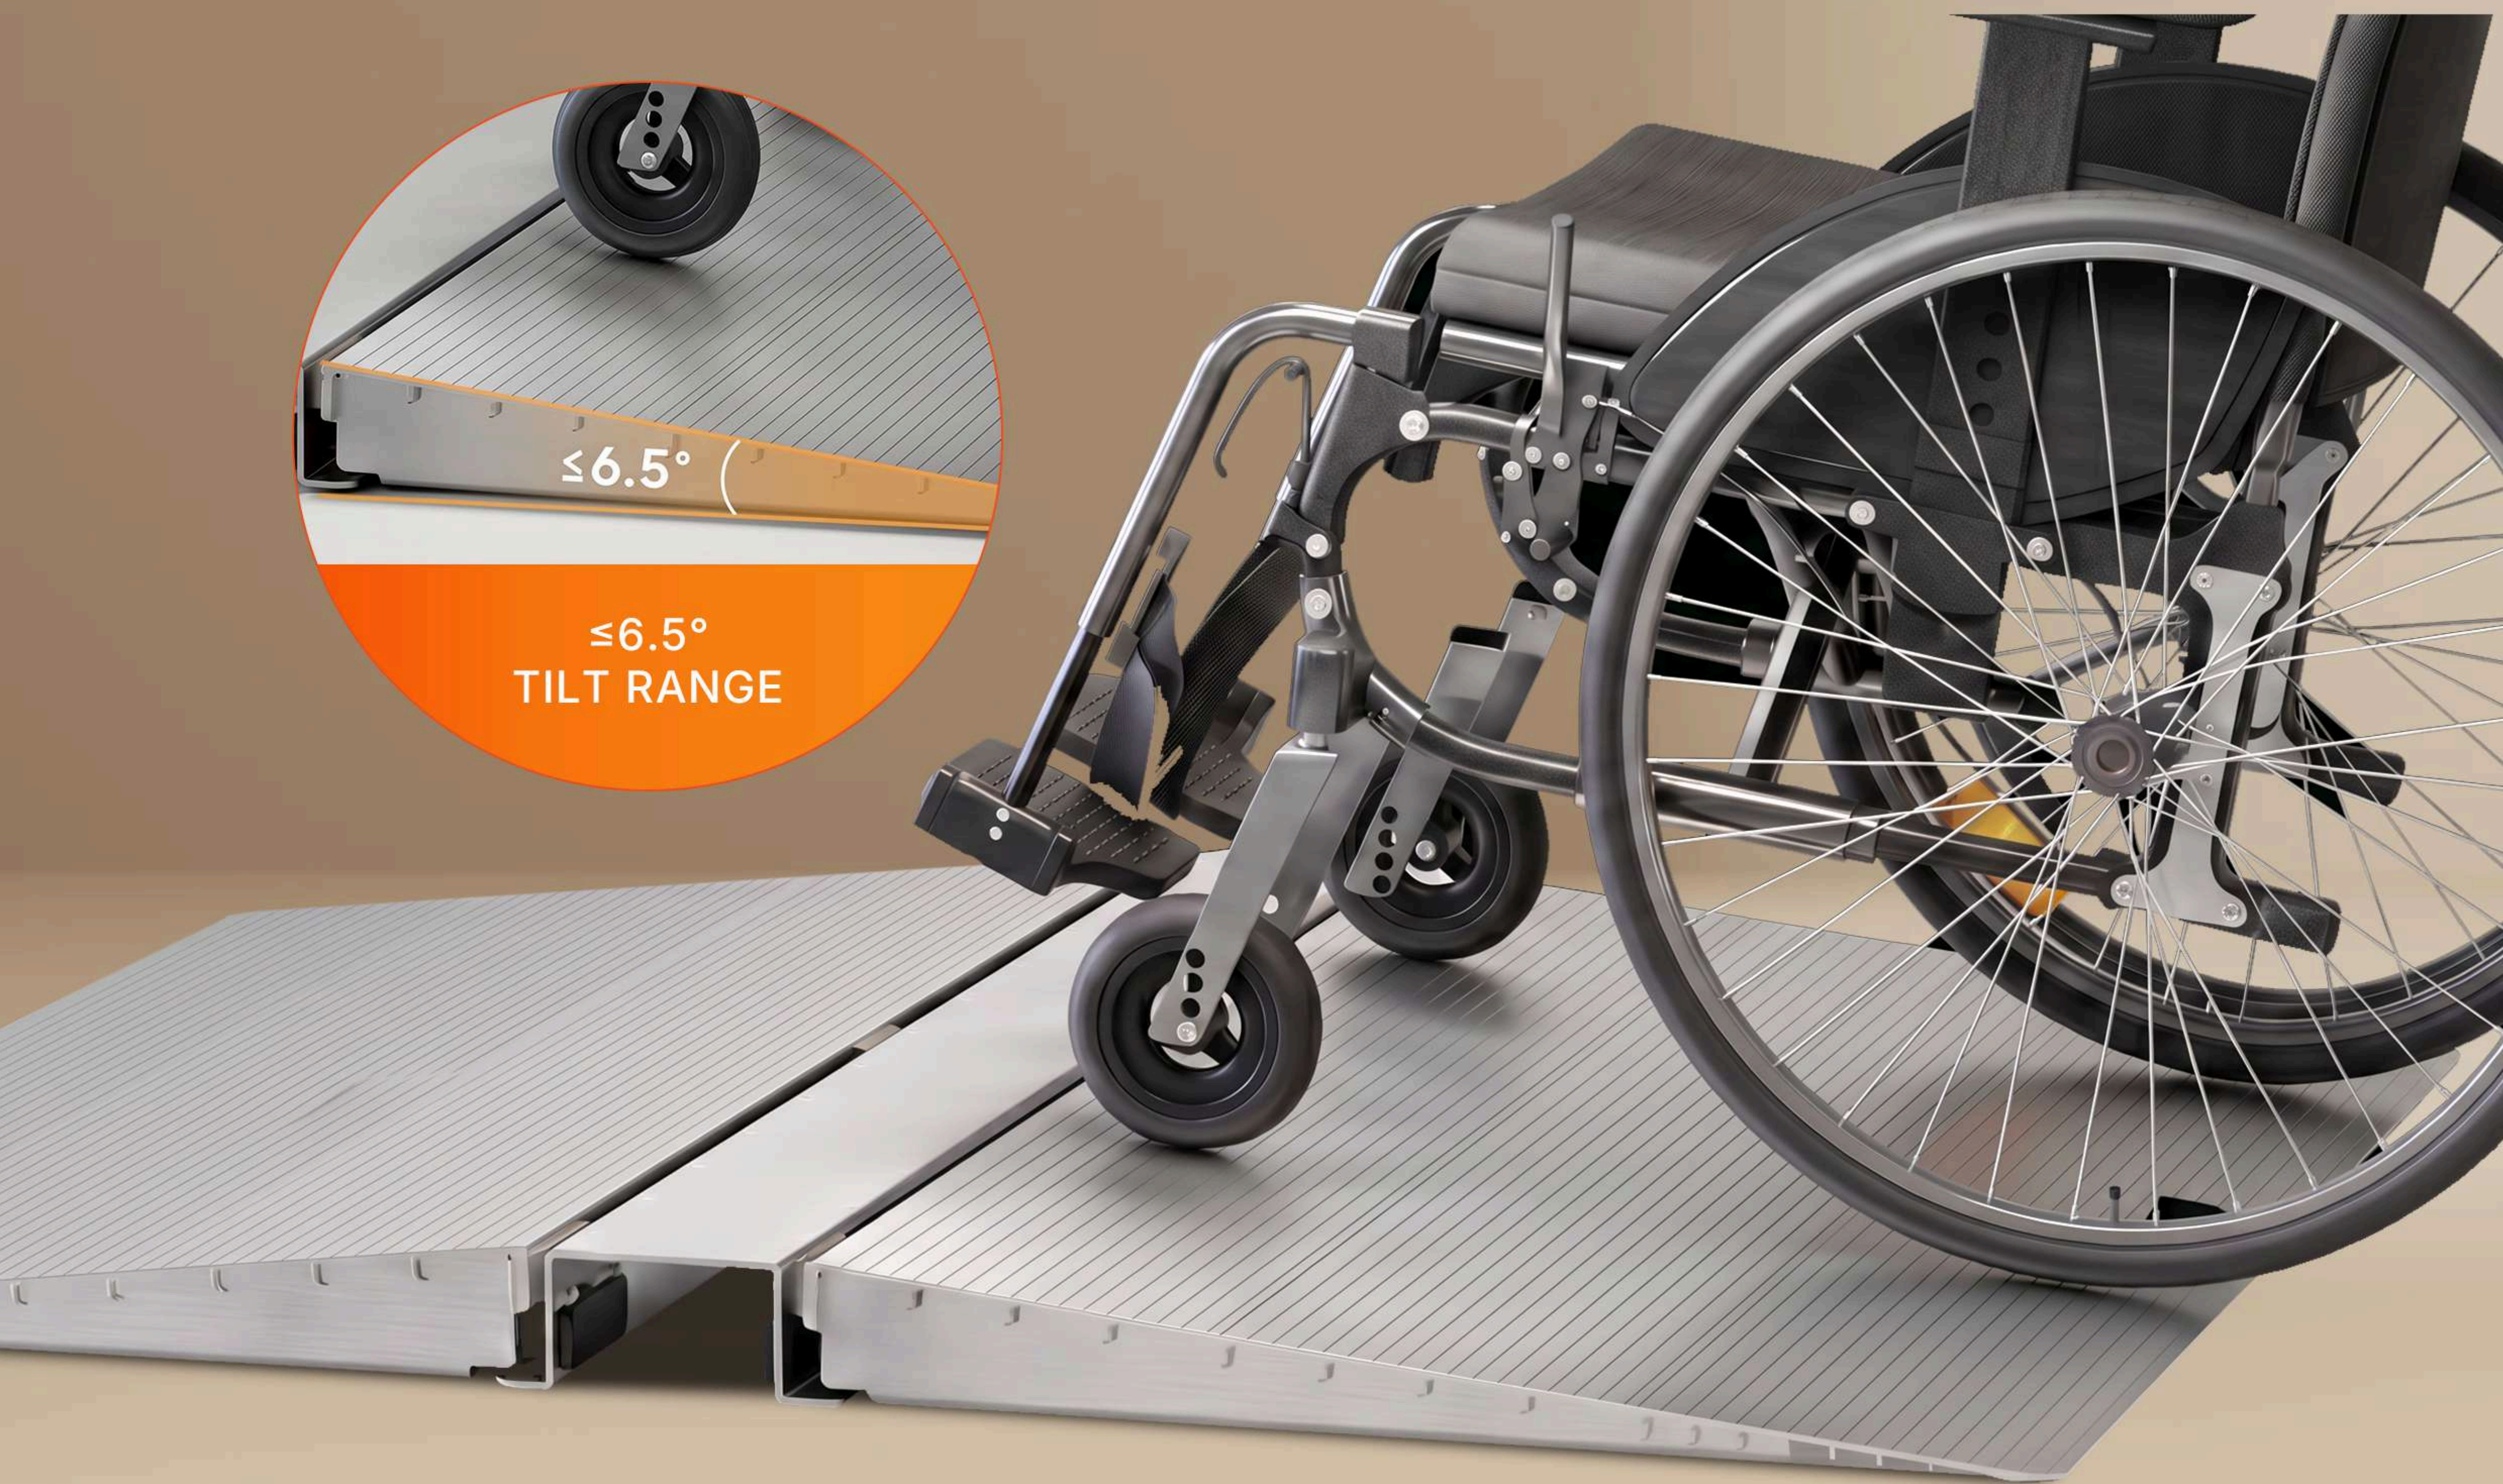

Durable Aluminum Construction

Built from lightweight yet strong aluminum for long-lasting performance and everyday reliability.

Safe & Reliable Mobility Support

High-capacity design combined with an enhanced traction surface provides stable, confident movement for wheelchairs, mobility scooters, carts, and other wheeled equipment across thresholds and obstacles.

≤32" Fit Wheelchair Size	300kg (660lbs) Weight Capacity	Aluminum, Silicone, Steel Material
