

Wheelchair Threshold Ramp

Creating Safer Paths For Everyday Movements.

The Brateck Two-Sided Aluminum Wheelchair Threshold Ramp helps create safer and more accessible pathways by providing a smooth transition over doorways, thresholds, and small elevation changes.

Two-Sided Transition Design

Creates a smooth passage over thresholds from either direction, improving accessibility and ease of movement.

Slip-Resistant Surface

Enhances traction and safety, helping users navigate transitions more securely in various conditions.

Versatile Application

Suitable for homes, offices, healthcare facilities, retail spaces, and public buildings where improved accessibility is essential.

Wheelchair Threshold Ramp

Creating Safer Paths For Everyday Movements.

Its durable aluminum construction is built for everyday use. Ideal for homes, offices, healthcare facilities, and public areas, it enhances accessibility while promoting convenience and inclusivity.

Features

Durable Aluminum Construction

Built to withstand daily use while providing long-lasting strength and reliability in both residential and commercial environments.

Low-Maintenance Design

Corrosion-resistant materials make cleaning simple and help maintain performance over time with minimal upkeep.

Barrier-Free Accessibility

Helps reduce obstacles at entrances and doorways, promoting greater independence.

Lightweight Yet Robust Design

Combines easy handling and installation with exceptional durability, making it a practical accessibility solution for everyday environments.

Specifications

Fit Wheelchair Size

≤32"

Color

Silver

Dimensions

1114x920x60mm

Material

Aluminum, Silicone, Steel

Thickness

3mm (0.12")

Tilt Range

≤6.5°

Sliding Door Track Height

≤55mm (≤2.2")

Sliding Door Track Width

≤80mm (≤3.1")

Weight Capacity

300kg (660lbs)
