

Aluminum Slatwall Panel

Your Workspace, Built to Adapt.

The Brateck MABT-SW01-3 Aluminum Modular Slatwall Panel transforms unused vertical space into a versatile workspace system. Its two-sided slots, lightweight aluminium construction and 40kg capacity provide a strong foundation for organised, adaptable desk or wall-mounted configurations.

Built for More

Supports a total weight capacity of up to 40kg.

Generously Sized

A 1200mm-wide panel provides ample space for compatible accessories.

Lightweight Strength

Powder-coated aluminium construction delivers durability with a clean, streamlined appearance.

Create More Space. Work Without Limits.

A flexible aluminium slatwall system designed to organise accessories and optimise modern workspaces.

Features

Make Better Use of Vertical Space

Move compatible accessories above the work surface to create a cleaner, more organised and productive workspace.

Flexible Mounting Options

Configure the panel as a desk-mounted or wall-mounted system using the corresponding Brateck mounting hardware.*

Two-Sided Accessory Slots

The dual-sided design provides an efficient way to support flexible layouts and multi-user workspace configurations.

Modular by Design

Reposition accessories, update the configuration or expand the system as workspace requirements change.
