Brateck

Make Your Monitor Mountable.

FOUR-ARM MONITOR ADAPTER

The **Brateck XMA-01 Four-Arm Monitor Adapter Kit** provides a practical solution for mounting flat-panel monitors without built-in VESA mounting holes. Featuring four adjustable arms that securely grip the edges of the monitor, it accommodates screen thicknesses and connects to compatible monitor arms or wall mounts.

Non-VESA Monitor Compatibility

Designed to convert compatible monitors without built-in VESA mounting holes into mountable displays, allowing users to connect their existing screens.

Adjustable Four-Arm Clamping System

Features four adjustable arms that securely grip the edges of flat-panel monitors, accommodating different screen dimensions and providing a stable connection without requiring mounting holes.

Flexible Monitor Thickness Compatibility

Accommodates flat-panel monitors with a thickness, providing greater flexibility for different monitor designs through its adjustable clamping structure.

26.5MM TO 65MM

Convenient Installation & Durable Construction

Includes the necessary mounting screws and assembly hardware, combining practical installation with a durable powder-coated fine-texture black finish.
