

Projector Ceiling Mount

Precision Mounting for Every Projection.

Achieve the perfect projection angle with the Brateck Projector Ceiling Mount designed to support most projectors. Featuring adjustable tilt, 360° horizontal rotation, and ceiling drop options.

Universal Projector Compatibility

Supports most projectors weighing up to 10 kg, making it ideal for home theaters, classrooms, offices, and conference rooms.

Precision Viewing Adjustment

±15° tilt and 360° horizontal rotation allow precise projector positioning for perfectly aligned images.

Flexible Ceiling Drop Options

Choose between 80 mm or 170 mm ceiling profiles to accommodate different ceiling heights and installation requirements.

Projector Ceiling Mount

Precision Mounting for Every Projection.

It provides flexible positioning for classrooms, offices, conference rooms, and home theaters. Built for stability and easy installation, it delivers a clean, professional projection setup.

Features

Built-In Cable Management

Integrated cable routing keeps power and AV cables neatly concealed for a clean, professional-looking installation.

Secure & Stable Mounting

Engineered to hold projectors firmly in place, ensuring dependable performance and peace of mind.

Lightweight Aluminum Construction

Durable aluminum design provides reliable support while remaining lightweight and corrosion-resistant.

Quick & Easy Installation

Designed for fast assembly and secure ceiling mounting, helping you get your projector ready in no time.
