

# Projector Electric Screen

**Transform Every Space into a Theater.**

Brateck 135" Electric Projector Screen is designed for classrooms, conference rooms, home theaters, and entertainment spaces.

## Widescreen Display

Large 3.0 × 1.68 m viewing area with a 16:9 aspect ratio provides an outstanding viewing experience for presentations, movies, and multimedia.

## Enhanced Picture Contrast

Four-sided black masking borders improve perceived contrast for sharper, more immersive visuals.

## Easy-Clean Screen Surface

Durable screen material is easy to clean, helping maintain excellent image quality over time.

# Projector Electric Screen

## Transform Every Space into a Theater.

Featuring a widescreen format and a generous large viewing area for immersive visuals. Its smooth electric operation delivers effortless screen deployment with a clean, professional appearance.

## Features

### Superior Image Quality

Black-backed screen material blocks light penetration, enhancing brightness, color accuracy, and overall image performance.

### Heavy-Duty Steel Housing

Sturdy steel case with a durable roller mechanism ensures smooth operation and long-lasting reliability.

### Dual Control Convenience

Operate the screen effortlessly using the RF remote control or the 3-way wall switch for flexible and convenient operation.

### Smooth & Quiet Operation

Silent tubular motor delivers reliable, low-noise screen deployment with low power consumption.
