

Brateck

Secure Tablet Display Built for Public Spaces

LOCKABLE TABLET ENCLOSURE KIOSK STAND

The **Brateck MPBT-PAD12-04N Anti-Theft Tablet Kiosk Stand** provides a secure and professional mounting solution for tablets in public-facing environments. Its anti-theft lock with key and bolt-down base deliver enhanced protection against unwanted removal, while the free-tilting design allows flexible viewing experiences. Heavy-duty steel construction ensures durability, and rear cable management with precise cutouts maintains a clean and functional installation.

Durable Anti-Theft Construction

Heavy-duty steel construction with anti-theft lock and bolt-down base delivers strong physical security and long-term durability for high-traffic public installations.

Flexible Viewing & Full Accessibility

Free-tilting design allows multiple viewing angles, while precise cutouts ensure full access to buttons, cameras, and power connection without removing the tablet.

Clean & Organised Installation

Rear cable management system conceals wiring within the structure, maintaining a neat, clutter-free and professional display setup.

HIDDEN CABLE ROUTING

Cables fully concealed for a clean finish

REAR ENTRY CABLE FLOW

Rear access keeps cables neatly guided

CLUTTER-FREE FRONT VIEW

No visible cables from the front

Fits Multiple Tablets

Compatible with a range of tablet models and sizes including iPad, iPad Air, iPad Pro, and Samsung Galaxy Tab series for flexible deployment.
