

Brateck

Secure Every Touchpoint

SECURE TABLET DISPLAY SOLUTION

Designed for reception desks, retail counters and customer-facing environments, the **Brateck MPBT-PAD15-02** combines dependable tablet security with a premium aluminium design to create a clean, professional display for everyday use.

Built to Stay in Place

Whether installed in a busy reception area or retail counter, the integrated locking system helps keep your tablet protected while remaining accessible to customers and staff.

Adapt to Every Interaction

Different tasks require different viewing angles. Rotate the display between portrait and landscape in seconds for the best user experience.

Clean Looks. Cleaner Setup.

Power cables stay neatly concealed inside the support column, creating a clutter-free installation that's ideal for customer-facing environments.

Mount with Confidence

The integrated 75 × 75 VESA mounting interface provides a secure and reliable attachment, making installation simple while ensuring long-term stability in commercial environments.
