

Secure Tablet Displays.

Secure Mounting. Professional Presentation.

The **Brateck MPBT-PAD15-02** is a premium anti-theft countertop tablet kiosk stand designed for secure customer-facing applications. Supporting compatible 9.7"-10.1" tablets, it combines durable construction, effortless screen rotation, and integrated cable management for a clean, professional presentation in retail, hospitality, education, healthcare, and corporate environments.

Anti-Theft Security

Integrated lock-and-key protection secures tablets against unauthorised removal while maintaining controlled access when required.

90° Screen Rotation

Quickly switch between portrait and landscape orientations to suit customer check-in, ordering, digital signage, and interactive kiosk applications.

Wide Tablet Compatibility

Designed to support compatible 9.7"-10.1" tablets, making deployment simple across a variety of commercial environments.

Anti-Theft Countertop Tablet Kiosk Stand

Premium Tablet Security

Designed for secure commercial environments, the **MPBT-PAD15-02** provides reliable tablet protection with effortless rotation, durable construction, and a professional countertop installation.
