

Brateck

Lock It. Display It. Secure It.

ANTI-THEFT TABLET KIOSK STAND

The **Brateck MPBT-PAD15-03 Anti-Theft Tablet Kiosk Stand** provides a secure and professional mounting solution for tablets in public-facing environments. Its lockable enclosure, integrated cable management, and rotatable display design help protect devices while delivering a clean and engaging user experience.

90° Rotation Portrait & Landscape

Enables smooth switching between portrait and landscape orientation, making it ideal for interactive viewing, customer engagement, and flexible display use in various environments.

Anti-theft Lock with a Key

Provides secure physical protection by locking the tablet in place, helping prevent unauthorized removal or tampering in public-facing installations such as retail counters, reception areas, and kiosks.

Internal Cable Routing

Integrated cable management within the column keeps power and data cables neatly concealed, reducing clutter and ensuring a clean, professional, and organised setup.

HIDDEN CABLING

Integrated tube routing keeps cables fully concealed from sight.

HOME BUTTON SHIELD

Bottom covering prevents public access to the Home Button.

STEEL BASE STABILITY

Heavy-duty steel base ensures the stand stays firmly in place.

REMOVABLE PANEL

Panel can be detached for easy tablet swap or maintenance.
