

Anti-Theft Countertop Tablet Kiosk Stand

Lock It. Display It. Secure It.

The **Brateck MPBT-PAD15-03 Anti-Theft Tablet Kiosk Stand** provides a secure and professional mounting solution for tablets in public-facing environments. Its lockable enclosure, integrated cable management, and rotatable display design help protect devices while delivering a clean and engaging user experience.

Anti-Theft Security

Keyed lock prevents unauthorized removal, making it ideal for public and retail spaces.

90° Rotation

Easily switch between portrait and landscape orientations to suit any display need.

Integrated Cable Routing

Hidden cable management inside the column keeps wires tidy and out of sight.

Anti-Theft Countertop Tablet Kiosk Stand

Secure Display. Anywhere.

Designed for secure public display, the PAD15-03 combines anti-theft keyed locking, adjustable width panel, and smart cable routing in a robust steel-based kiosk stand.

Features

90° Screen Rotation

Rotate between portrait and landscape orientation with ease to match any display or content requirement.

Anti-Theft Lock with Key

Includes a keyed locking mechanism that prevents unauthorized removal in retail, hospitality, and public settings.

Internal Cable Routing

Cables run discreetly through the column to keep the display area clean and professional-looking.

Home Button Cover

Built-in home button covering prevents public access to device controls for a true kiosk experience.

Width-Adjustable Panel

Accommodates iPad 1/2/3/4/Air and most 9.7-10.1" tablets including Samsung Galaxy models.

Tabletop Kiosk Stand

VESA 75x75-compatible steel base provides a stable, permanent countertop display solution.
